### SUNBEAM 50/100 FC:

- RGB full-colour mixing system
- 10/20 single cluster controllable
- Full HDTV compatible / flicker-free
- Innovative QuickRig mounting system
- Protection class IP65
- Available as 50 cm or 100 cm model

Sunbeam 4c Zoom

### SUNBEAM 50/100 4C ZOOM:

- RGBW full-colour mixing system
- Electronic zoom without moving parts
- Independent control of up to 4 zones
- 16bit / total stepless dimming
- Integrated glare shield
- Full HDTV compatible / flicker-free
- Innovative QuickRig mounting system
- Protection class IP65
- Available as 50 cm or 100 cm model

Sunbeam TwoWhite

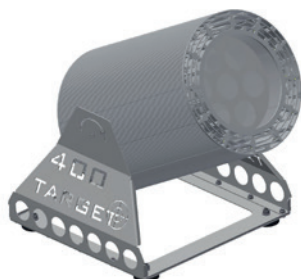

### SUNBEAM 50/100 TwoWhite:

- White tunable 2700-10000 Kelvin LEDs
- CRI=94[74] WW[CW]
- Independent control of up to 4 zones
- 16bit / total stepless dimming
- Full HDTV compatible / flicker-free
- Innovative QuickRig mounting system
- Protection class IP65
- Available as 50 cm or 100 cm model

### FRISBEE FCW:

- RGB full-colour mixing system + 6000K cool white LEDs
- Full HDTV compatible / flicker-free
- Innovative QuickRig mounting system
- Protection class IP65
- Very compact

## TARGET:

- LED outdoor spot with 2,5 degree optical angle (LED Cannon)
- Sharp projection, no wash effect
- 400 W LED power
- Innovative convection cooling system up to 50 degree ambient temperature
- Protection class IP65
- For long throw applications up to some hundreds of meters

Wing 125

## WING 125/250 4C:

- 125/250 W Led power
- RGBW full-colour mixing system
- High quality outdoor architectural lamp
- Optical angle 7,5/22/35 + customer version
- Protection class IP 67
- Optional wireless DMX built in

Wing 250

## WING 125/250 TW:

- 125/250 W Led power
- White tunable 2700-10000 Kelvin
- CRI=94[74] WW[CW]
- High quality outdoor architectural lamp
- Optical angle 7,5/22/35 + customer version
- Protection class IP 67
- Optional wireless DMX built-in

## CLED 1000/3000:

- 1 and 3kW LED power
- RGB mixing system with 10 degree optical angle
- Protection class IP54
- 28mm TV spigot for truss rigging
- Integrated compartment for horizontal and vertical micro-optical spread plates for wide projection
- For long throw applications up to some hundreds of meters
